The Scientific Publishing House IVG calls for manuscript to peer-reviewed monographs/collective works

We invite researchers to submit an article to the peer-reviewed scientific monographs listed below.

Manuscripts should be well-grounded in research and written for practitioners.

We are also interested in manuscripts that describe challenges and solutions to assessment issues and those that will promote discourse around effective approaches to assessment in different contexts and for different purposes.

The topic of these monographs are:

1. Disruption and hardship from the COVID-19 pandemic
2. What support you can get if you're affected by coronavirus
3. Innovative solutions for economy against any pandemic - Stop pandemic in the next time
4. Coronavirus - special solutions related to the prevention, counteraction and combating COVID-19
5. Sustainable development challenges for national and global economies
6. Innovative approaches against COVID-19
7. A history of dangerous viruses and pandemics in the world
8. The Smart City conception – future our world
9. Resource efficient Europe: to help decouple economic growth from the use of nature resources
10. European platform against poverty: to ensure social and territorial cohesion
